## Houston Alumnae Panhellenic Association

In 1929, the Houston Alumnae Panhellenic Association (HAPA) was organized and became affiliated with the National Panhellenic Conference. # General Information

Houston Alumnae Panhellenic Association (HAPA): HAPA will help provide you with general sorority information and will notify Houston Alumnae groups of your intent to participate in membership recruitment. THIS DOES NOT REGISTER YOU WITH YOUR COLLEGE PANHELLENIC. Please register online for recruitment at the Houston Panhellenic website: [www.houston-panhellenic.org](http://www.houston-panhellenic.org) under the “Recruitment” menu. Online registration will open **February 24, 2024**.

By **May 1, 2024**, register online at [www.houston-panhellenic.org](http://www.houston-panhellenic.org). If you miss this deadline or fail to register with HAPA, it does NOT mean that you will not be able to participate in recruitment. The May 1st HAPA deadline is the same whether your school has fall or spring recruitment because the sorority members use the summertime to get organized and ready for recruitment regardless of when.

Campus Panhellenic Association: When you register with your campus Panhellenic (which is required), they will send you information about what you can expect during the recruitment process on their campus. Campus registration dates vary, so check their website for the deadline at your university/college. Don't forget Follow your College Panhellenic on social media!

Recruitment: The recruitment process typically includes three or four events. These events are intended for you to learn more about each sorority and their philanthropies. Recruitment is a selection process made mutually between the sororities and you. The period of recruitment varies by campus and usually lasts for several days, but it may go as long as a couple of weeks.

Sorority Membership...It's for life! All sororities were created with the desire for friendship, leadership, achievement, and philanthropy in their pursuit of higher education. There are numerous benefits in joining a sorority including: they offer you a home away from home; help make the university/college smaller by providing an easy way to connect with others; give you an opportunity to develop leadership skills; membership provides a lifetime of friendship through alumnae associations across the globe. Alumnae groups are among the most noted organizations throughout a community due, in large part, to their support of non-profit organizations. Sorority membership IS for life. For more information on the benefits of joining a sorority (along with numerous other topics) go to: [www.thesororitylife.com](http://www.thesororitylife.com).

GPA: Many sororities encourage scholastic excellence for their members; as a Potential New Member (PNM) during recruitment, be sure to inquire about each NPC sorority's individual GPA requirement for membership.

Scholarship: Every sorority wishes to maintain a high chapter grade point average; therefore, each must consider a woman's ability to adhere to its scholastic standards. There is an expectation that each student recruited will place importance upon the completion of her education and remains involved with the sorority for the full four years.

Compatibility: Sororities are based upon friendship, congeniality, and mutual ideals. The ability to get along with others and the enjoyment of being with people of diverse personalities is a desirable quality.

Involvement: Those who are group-oriented and who enjoy working with people are more likely to contribute to sorority operations and to benefit from membership. The PNM's resume should show a desire to not only "join" an organization, but to also be invested in that organization through their time and leadership. A resume showing the quality of involvement in an organization is more important than the quantity of activities.

Financial Responsibility: Membership dues finance each sorority. Women participating in the membership recruitment process should be aware of the cost of sorority membership and be willing to accept this financial obligation.

Cost of membership: Expenses for sorority membership include PNM fees, initiation fees, building fees, and dues. To secure accurate information regarding the expenses for sorority membership on your campus please go to the campus website and search for "panhellenic" (See following pages for web site addresses.) Review the material on the university/college website or contact the Panhellenic Council on the campus you are attending to find out specific costs for sorority membership at that particular campus. Fees will vary by sorority. This information changes from year to year and the Panhellenic office at each campus has the most up-to-date information regarding these costs. They will be your most reliable source for this information. In addition to these expenses, there may be fees for events and other items.

It's a Mutual Decision: National Panhellenic Conference (NPC) sororities are private, social organizations. These collegiate groups have the right to invite those PNMs into their membership who they consider to be the best all-around fit for their organization. The privilege of choice is mutual for both the sorority and the PNM.

It is best not to make up your mind about joining any sorority before you have met its active

collegiate members. Remember that you are not joining a "name" but choosing a closely-knit group in which you expect to make lasting friendships in college and alumnae life. Also, remember that individual sororities differ from campus to campus, and there are girls in every sorority with whom you can develop lasting friendships. Enter recruitment with an open mind.

At preferential signing at the end of the membership recruitment events, you are encouraged to list more than one sorority in order to maximize your chances for sorority membership. Please understand that when you receive your invitation for membership, it could be your second or third choice that has offered you membership.

# Reference Packet

*The 26 National Panhellenic Conference (NPC) member organizations have agreed that the responsibility for providing letters of recommendation for potential new members rests with the members of NPC sororities. Any recruitment information distributed by College and/or Alumnae Panhellenics may not state or infer that letters of recommendation are to be secured by potential new members.*

## Suggestions for Getting Organized – BEGIN NOW

Make a list of all of the sororities at the universities/colleges you are considering. You can find this list by searching for the campus's panhellenic website or the student life tab on the university's website and look for the list of NPC sororities.

HAPA has compiled the reference and/or letters of support information with regards to the recruitment requirements of the 26 Panhellenic sororities within the following pages. However, the responsibility of member organizations to educate PNMs of their individual requirements regarding references and/or letters of support. All information provided to the reference writer is called a recruitment packet. If required or requested by a member organization, your RIF writer will send the pertinent information listed within your recruitment packet to the member organization.

Prepare your social resume. A sample format is provided on the following pages (15-16).

As soon as you have your recruitment packets together, email it to each individual who will be writing a RIF on your behalf.

A "thank you" note is always appreciated, HAPA and NPC discourage gifts of any size to your sponsor.

Register:

- 1) with HAPA by May 1, and
- 2) with your university/college Panhellenic before their deadline

## Pictures

The pictures are used so that the sorority members will recognize you when you arrive at the party. They are NOT used to judge you. Make sure all photos represent you well. It is highly recommended you not make drastic appearance changes from the time your photos are taken until after recruitment occurs. This way, the active members will know you when you walk through their doors. Sororities will accept emailed photos with a quality resolution as stated in the guidance on the following pages.

The photos do not need to be taken by a professional. The picture should be clear enough to be scanned. It is best not to include anyone else, including a pet, in your picture.

The photo file title should include your name, high school, and university. (See pages 25-26 for a sample.)

Present your scholastic and extracurricular activities and honors in a clear and concise format. List your sorority legacy information. Each sorority has its own definition of a “legacy.” It is generally defined as a daughter or sister of an initiated member. Some sororities also recognize a granddaughter, stepdaughter or stepsister. Sororities cannot guarantee invitations or membership to legacies. At times, there are more legacies entering recruitment than a college chapter has membership openings. Legacies must meet the same qualification standards that non-legacies meet, but if you are a legacy to any sorority, you should list them on your resume.

## Social Resume

DO NOT put your social security number on any documents. Mark it out on transcripts.

A copy of your school issued transcript is all that you need for those groups requiring a transcript.

Sign the transcript if you are 18; have a parent sign it if you are younger than 18.

If the transcript does not include your SAT and/or ACT scores, then include copies of those as well.

## Reference Information Form (RIF)

Each sorority has their own submission form. It is obtained by the author of your RIF as required by the individual member organization. If you are undecided by the end of April regarding which university you will attend, have your reference writer notate the RIF, listing the schools you are considering.

## Letters of Support

Letters of support are optional. A LOS is nothing more than a personally written letter of recommendation written on your behalf. A LOS should be written by someone who knows you personally; it's a great opportunity for an alumna to share a few personal things about you that might not be written in the RIF. Check online to make sure that each sorority will accept LOS.

## Social Media

Once the actual recruitment process has begun, no sorority member should request to follow/contact with you through ANY social media. Most forms of social networking are accessible to others, including sorority members. You should "clean up" your accounts NOW. Be mindful of your security settings, accepting friends, and sharing personal information and private photos online. This type of information will be accessible to sorority members during the entire recruitment process!

**IMPORTANT:** Although HAPA has tried to provide the most up-to-date information regarding sorority recruitment, it is imperative you:

1) go to each sorority's website for their individual requirements

AND

2) go to your university's website to find out exactly what their Panhellenic requirements entail.

According to the NPC Manual July 28<sup>th</sup> Edition, all PNMs should have positive panhellenic contact with events representing all NPC organizations rather than in a chapter house, event, or individual sorority member's home.

If you have questions or concerns, depend on your recruitment counselor during the recruitment process as they are available to PNMs at all times. They may go by Rho Chi, Rho Gamma, or other variation of Greek letters, and are assigned to you for the duration of the process.

# Information for Alumnae Reference Writers

It is an honor and privilege for sorority alumnae to introduce Potential New Members (PNMs) to their sorority, and it supports the continued growth of the sorority and the Panhellenic community in general. This process is accomplished through the use of a Reference Information Form (RIF) and Letters of Support (LOS). Each NPC sorority has its own reference process.

The alumna is responsible for submitting the RIF to her sorority. Do not give the RIF to the PNM. If you are not personally acquainted with the PNM, you may request a meeting or an interview. It is against NPC guidelines for the alumna to accept gifts from a PNM, but the PNM's are strongly encouraged to write thank you notes.

The Reference Information Forms for each sorority may be found on the respective sorority's website (see the following pages for a complete list). These are generally password protected so you must register with your alumnae association online before you begin writing a RIF. All instructions regarding how to complete a RIF/LOS will be provided on your sorority's website.

In Houston, many of the NPC sororities have a local Alumnae Recruitment Chairman (ARC) who can assist in this process. Please reach out to them by contacting your local alumnae group or going to the HAPA website "Recruitment" menu.

If you are introducing your daughter/granddaughter as a legacy, you need to follow the procedures outlined by your sorority. There is no guarantee that your legacy will be invited to specific rounds or offered membership. It is highly discouraged for a mother or sister to write a RIF/LOS for the PNM going through recruitment.

HAPA asks that you do your best to seek answers for any questions you have via your sorority alumnae association, college chapter, or national headquarters as they will have the most accurate information. In the event you still need help, you may contact any HAPA Recruitment committee member listed on page 30 of this guide.

# Houston Alumnae Panhellenic Foundation Scholarship Opportunities

Since its inception in 1987, the HAPF Scholarship Fund has awarded \$1,301,200.00 in scholarships to 677 sorority women attending Texas and out-of-state universities and colleges. HAPF strives through its scholarships to help these young women excel academically and learn leadership skills. Many of the past winners are not only representatives and role models in their sororities, but they also are active contributors to numerous on-campus organizations. While attending school full-time, many work part time jobs to offset the cost of their educations.

The range of scholarships to be awarded is between \$3,000 and \$6,000.

In 2023:

- \$98,500 was awarded to 26 deserving sorority members. 12 sororities were represented.
- 8 Texas universities were represented.
- 8 out-of-state universities were represented.
- 11 of these recipients were repeat winners; 2 are three-time winners, and 9 are two-time winners

*Scholarships are awarded annually at the HAPF May luncheon. The next deadline will be February 15, 2024, with scholarships presented in May 2024.*

*Provides Information and Answers  
About the Recruitment Process and Sorority Life*

Being in a sorority is NOT what you see on TV and in movies.

Yes, there are social functions, fraternity men, and visitors from the international organizations, but life does not revolve around these things. It is so much more!

## What It Is

- A life-long support system that provides career opportunities and networking opportunities during college and in the real world
- An organization that values philanthropy and community service
- A place where women learn to be leaders
- A place to meet amazing friends who will be there for you when you need them A place to enjoy formal dances, date parties, intramural sports, and other fun social events

## What It Is NOT

- A place that puts your looks and wardrobe ahead of your values and personality Full of ditzy girls who are only out to have a good time
- A place that will haze you or make you do things against your will full of rich, spoiled, and snobby girls
- A place that is only interested in your money while you're in school and will forget about you after you graduate

## What Sororities Offer

- College offers the opportunity to learn.
  - Sororities provide the motivation.
- College life offers a wide range of activities.
  - Sorority life involves members in them.
- College life offers social events.
  - Sorority life offers a social experience.
- College offers a room.
  - Sorority life offers a home.
- College life offers the benefits of community.
  - Sorority life involves you in the community.

## Creed of the National Panhellenic Conference (NPC)

We, as undergraduate members of women's fraternities, stand for good scholarship, for guarding of good health, for maintenance of fine standards, and for serving, to the best of our ability, our college community. Cooperation for furthering fraternity life, in harmony with its best possibilities, is the ideal that shall guide our fraternity activities. We, as fraternity women, stand for service through the development of character inspired by the close contact and deep friendship of individual fraternity and Panhellenic life. The opportunity for wide and wise human service, through mutual respect and helpfulness, is the tenet by which we strive to live.
